ANTI-INTERFERENCE - Anti-Interference Capacitor Package S3AP - NAC Expander Adapter Plate BP-62 - 16 AH Battery, for High Temperature, with Metal Jacket, Set of 2 batteries

Most books and materials introducing anti-interference emphasize shielding A little grounding principle, but we have also found cases where the grounding effect is better on both sides of the shielded wire in practice. If one end cannot be grounded, the other end of the shield can also be grounded with a 0.1 u capacitor.

KEMET Interference Suppression Capacitors are designed for AC line filtering applications operating at 50Hz/60Hz frequencies. These capacitors are available in both safety-certified and non-safety-certified variants, primarily used for EMI/FRI suppression.
