

How to install a battery charging and storage cabinet?

Take the cabinet to the installation location. Carefully unwrap the battery charging and storage cabinet. Remove it from the wooden pallet. The cabinet will already be equipped with footing that allows it to be put in place on the flat, even surface with little to no fuss.

How do you charge a storemasta Battery Cabinet?

Put the lugs in the new position and place the shelf securely on top. Adjust the charging points to suit your battery charging requirements. Plug the cabinet in to the appropriate power socket. The shelving and the charging points of a Storemasta battery cabinet are adjustable to suit your needs and equipment.

What are battery charging cabinets?

Battery charging cabinets are a type of safety cabinet that's designed especially for lithium-ion batteries. Over the recent years, as the prevalence of lithium-ion batteries has grown in workplaces, battery cabinets have become more popular due to the many risk control measures that they provide.

What is a battery cabinet?

Battery cabinets are a convenient storage solution that encourages staff to maintain the correct handling and storage procedures. By charging and storing batteries in the one location, you are reducing the likelihood of batteries being lost, stolen, damaged or left in unsafe conditions (such as outdoors).

How do you maintain a battery cabinet?

Regularly check the doors to ensure that the self-closing, self-latching door mechanism is working correctly. Clean the fan blades at least once a month or when required. Schedule routine maintenance by a certified electrician on your battery cabinet to ensure it remains in safe working condition.

What is a lithium-ion battery cabinet?

The cabinet's key risk control measures include temperature regulation, in the form of natural and/or mechanical ventilation systems, that help keep the lithium-ion batteries cool and dry while they're charging and in storage. Battery cabinets are a type of safety cabinet specifically constructed for lithium-ion batteries.

Charge your lithium-ion batteries safely in a battery cabinet | Batteryguard contains battery fires within the safe | European tested and approved
