As system providers we are not only concentrating on tools, the focus is always on providing practice-oriented solutions for end users. Aside from suction machines, battery packs and battery chargers our solutions range from powerful cordless site lights to machine stands for saws. Discover here the perfect solution for all your needs.

Our battery pack designer tool is valuable for engineers and DIYers working on a wide range of applications, from stationary battery packs to electric vehicles to renewable energy systems. We aim to help ensure that battery packs are designed efficiently, safely, and with the desired performance characteristics for your intended use.

This tool streamlines the battery pack design process by providing a range of features and functionalities to assist in the design and optimization of battery packs. This is V1 of the tool, it's not perfect, it's not super pretty but it's extremely helpful. We plan to have many updates brought to this tool over time, to make it more robust and feature-rich. If you notice any issues, bugs, or ...
