When you plug in any laptop to a charger, the battery icon on the system tray will change, indicating that the battery is charging. But when you hover or click on the icon, it says "Plugged in not Charging." Some Lenovo laptops have Conservation mode enabled. This feature stops the battery from charging after reaching a specified limit ...

3 ???· Common Reasons for "Key Not Detected" Message. Experiencing a "key not detected" message with your Lexus can be frustrating. The key fob may not communicate correctly with the car due to several reasons, including battery issues, interference from external devices, and distance or signal range problems. Understanding these factors can ...
