

The adapter's role is to connect the top cover post of the square shell battery and the battery internal cell lugs, forming the current conduction. The current welding program selects a fiber laser with a wavelength of 1030~1090nm. The battery's negative pole adapter is made of copper, which has low absorption in this wavelength band and rapid heat dissipation. Therefore, high ...

Our lithium-ion battery electrode inspection equipment is designed to ensure the quality and reliability of battery electrodes used in various applications, such as electric vehicles, portable electronics, and energy storage systems. With our ...

• Meet a variety of inspections: battery dimensions, flatness, top cover appearance defects, shell appearance, blue film appearance defects, etc.; • Fully automatic loading and unloading, automatic sorting of OK/NG products, DMC labeling, uploading relevant product information to ...

AOI Machine for Cylindrical Lithium Battery Shell. This equipment base on actual production needs and previous and subsequent processes, including size inspection, data scanning and ...

We believe that you will satisfied with the machine feature of Suny Group and I am sure you will love our price, quality and service. Technical parameters . Item: Dimension(L*W*H) Battery Cover Remover: 2200*2000*1300mm: Lead Separator: 1800*1700*1600mm: Working Performance : Raw Material: Waste Lead Acid Battery: Feedin Port: One Feedin Port (feedin size could be ...

AOI Machine for Cylindrical Lithium Battery Shell. This equipment base on actual production needs and previous and subsequent processes, including size inspection, data scanning and binding, and online appearance inspection. Three inspection units automatically sort non-conforming products while conducting testing, and optimize the previous ...

High Precision Visual Inspection Machine For Battery Shell, Find Complete Details about High Precision Visual Inspection Machine For Battery Shell, Automatic Visual Inspection Machine, Vision Inspection System, Quality Inspection Optical Machine from Testing Equipment Supplier or Manufacturer-Hangzhou Deepvision Technology Co., Ltd.

Automatic Visual Inspection Of Battery Shell Appearance Defect Detection System Machine, Find Complete Details about Automatic Visual Inspection Of Battery Shell Appearance Defect ...
