

Battery shipping price from Dominican Republic to Gabon

What types of batteries can I mail or ship internationally?

There are many types of batteries that have different requirements when you wish to mail or ship them internationally: Wet batteries, also known as flooded lead-acid batteries, are commonly found in vehicles and backup power systems.

How do I ship a lithium hydride battery?

Choose a strong, double-walled box or container to hold all the contents securely. Seal the outer box with plenty of strong tape, and attach the correct shipping label clearly to the outside. For dry and nickel-metal hydride batteries, this will typically be a standard shipping label.

Does DHL Express ship battery shipments?

DHL Express has the expertise to guide you through every step. They know how to handle dangerous goods safely and ensure that your battery shipments are fully compliant, no matter where they're headed. Depending on what you're shipping and where it's going, DHL Express can walk you through the required documentation, so there's no guesswork.

Can I ship a lithium ion battery by air?

For this reason, any battery that is suspected or known to be defective (swelling, corroding or leaking, for example) is not permitted for shipping within the DHL Express network. When you're shipping lithium-ion batteries by air, it's essential to follow specific regulations regarding their state of charge (SoC).

Are wet batteries safe to ship internationally?

Like lithium batteries, there are strict regulations to follow when shipping wet batteries internationally. An IATA Dangerous Goods label must be attached, along with the correct UN number and shipping name for the particular type of batteries.

Are batteries allowed to be shipped?

However, they still require proper packaging and handling to avoid damage and potential short circuits. With regards to what batteries are not allowed to be shipped, damaged or defective batteries should never be shipped due to the increased risk of safety hazards.
