

QuantumScape was founded in 2010 to create a battery that doesn't make compromises-- and after a decade of hard work, have built a technology that enables the fast charging, long-lasting and safer batteries required to power zero-emissions transportation.

These advanced materials can be used to safeguard battery cells, electronic housings, control units, and even metal replacement. Makrolon®; TC not only optimizes heat dissipation but also ensures effective electrical insulation, guaranteeing safety and thermal efficiency. For applications requiring even greater heat dissipation capabilities, our electrically conductive Makrolon®; TC ...
