

Following the initial announcement in 2023, Murata has fulfilled its commitment to establish a new 200-mm mass production line aimed at bolstering its Silicon Capacitor manufacturing capabilities. The Caen facility, operated by Murata since the acquisition of the start-up IPDiA in 2016, is a beacon of innovation and is home to over 250 ...

We design and manufacture capacitor film production lines that are highly flexible and ideal for various applications, including electric vehicle applications (EVs). Our machines are equipped to produce high-quality polypropylene capacitor films using our biaxial stretching technologies, resulting in high dielectric strength, for an accurate ...

Following the initial announcement in 2023, Murata has fulfilled its commitment to establish a new 200-mm mass production line aimed at bolstering its Silicon Capacitor manufacturing ...

Very high degree of automation of the manufacturing line enables almost manless production. The fully automated capacitor production we have developed begins with the optical inspection of the windings using 3D vision technology. This ...

A capacitor factory is a complex facility that requires a highly trained workforce and specialized equipment to produce capacitors that meet the needs of various industries. The factory must ...

Following the initial announcement in 2023, Murata has fulfilled its commitment to establish a new 200-mm mass production line aimed at bolstering its Silicon Capacitor manufacturing capabilities. The Caen facility, operated by Murata since the acquisition of the start-up IPDiA in 2016, is a beacon of innovation and is home to over 250 dedicated employees working to support the ...

Murata Manufacturing Ltd has opened a new production line at its site in Caen, France, expanding the scope of its silicon capacitors Integrated Passive Solutions offering. As originally announced in 2023, Murata has delivered on its commitment to build a new 200mm mass production line.
