

Where can I buy AC/DC capacitors in Cape Town?

39a Robins Road Observatory . Cape Town . Western Cape . 7925 Sales of AC/DC Capacitors. 20 Brickfield Rd, Salt River . Cape Town . Western Cape . 7925 501 Strand Centre . Cape Town . Western Cape . 8001 Best Capacitor Companies in Cape Town. Find phone numbers, address, opening hours and reviews of the top Capacitor Companies in Cape Town.

What are capacitors & capacitor banks used for?

The capacitors and capacitor banks are used in the energy sector (power factor correction), green energy generation (wind and photo voltaic power plants), traction systems and induction heating equipment.

Where can I find electrical components in South Africa?

Best viewed at 1024x768 or higher screen resolution on IE 8 or later. Electroparts is a well established electrical wholesaler and distributor based in Cape Town and also has offices in Johannesburg allowing them to supply a vast range of electrical components throughout South Africa.

How a capacitor is protected from bursting?

Capacitors are protected with overpressure disconnecter, which ensures safe disconnection of the capacitor from the network in the event of overloading or at the end of its operation life. All the capacitors are equipped with built-in discharge resistors. The case of the capacitor is protected against bursting by the overpressure disconnecter.

What is a 3 phase capacitor?

All capacitors are available for voltages up to 800V and 50kVar, and are fitted with discharge resistors and over-pressure devices to safely disconnect failed capacitors from the network. Three phase capacitors have three elements connected in delta.

What are the different types of capacitor banks?

The capacitors are available in Single and Three-Phase design for voltages up to 24kV and 1000kVar, and can be supplied with pressure sensors operating from 230V/50Hz supply voltage. Capacitor banks type SCB and ACB are used for individual or central power factor correction in medium voltage power networks.
