

What is Sun Yat-sen University?

Sun Yat-sen University is a major Chinese public Research University founded in 1924 and named after the revolutionary and founding father of the Republic of China, Sun Yat-Sen. It is located in Guangzhou, Guangdong, China, and covers an area of 9.15 sq km.

What is Sun Yat-sen University Cancer Center?

Sun Yat-sen University Cancer Center is a comprehensive cancer center that provides clinical care to patients, education (for students and CME), and performs research and prevention activities.

What is Sun Yat-sen University Library?

Founded in 1924, Sun Yat-sen University Library consists of 5 campus libraries, which has constructed a comprehensive, complete and well-structured information resource system spanning a wide range of disciplines, such as humanities, social sciences, natural sciences, health sciences, engineering, agriculture and arts.

What is SYSU's Technology & Innovation Center?

Explore 8 major platforms for technology and innovation at SYSU. With an area of 42,332 square meters, the center encompasses functional rooms such as the main computer room, storage room, high and low-voltage power distribution room, cooling equipment room, and ancillary rooms.

My research focuses on detection, attribution and impact of solar radiation, including observation dataset reconstruction, attribution of global dimming and brightening, impacts on solar...

Nan ZHANG of Sun Yat-Sen University, Guangzhou (SYSU) | Contact Nan ZHANG

6 Institute for Solar Energy Systems, Guangdong Engineering Technology Research Center for Sustainable Photovoltaic Technology and Equipment, State Key Laboratory of Optoelectronic Materials and Technologies, Sun Yat-sen University, Guangzhou, 510275, P.R. China. linh229@mail.sysu.cn.

Gary Chow currently works at China Singyes Solar Technologies Holdings Limited. Gary does research in Materials Physics and PV module recycling.

Upon completion, it will become a vital platform for studying magnetic materials and dynamic properties of matter science in China, breaking through constraints in frontier research in related...

He is the director of the Solar Energy Research Institute of Sun Yat-sen University and the director of the Institute of Power Electronics and Control. He is also a member of the...

Sun Yat-Sen University. School of Atmospheric Science ; Guangzhou, China; Position. Professor (Full) April 2011 - August 2017. National Meteorological Information Center. Division of ...

Under the agreement, the South China Solar Energy Research Institute will be built into a R & D base mainly focusing on photovoltaic components, systems and application technology to...
