

Why is Damascus not able to use a power generator?

The town has access to very limited electrical power over long periods of time, making it difficult to use power generators that need to be recharged frequently when in use, such as the batteries commonly used by the residents of the Syrian capital, Damascus, and some rural areas. Power cuts hours vary clearly between Damascus and its countryside.

How has electricity changed in Damascus?

The last ten years have greatly taken their toll on the service conditions associated with electricity in Damascus; according to a research study prepared by researchers Sinan Hatahet and Karam Shaar, the per capita consumption of state electricity is now 15 percent less of what it was in 2010.

Why are gas messages causing a crisis in Damascus?

The long time it takes for the gas messages to be received is causing a great crisis in the homes of Damascus and its countryside, as the Public Establishment for Refining and Distribution (PERD) set fuel allocations per household at 200 liters on the Smart Card, to be distributed into four batches of 50 liters each.

Why is there a shortage of electricity in Syria?

The company, however, only obtained 8.2 million cubic meters of gas. The research study had summarized the reasons behind the problem of electricity shortage in Syria due to the inadequate recovery of the transmission network in the destroyed areas and the lack of fuel needed to operate the power plants.

How long do power cuts last in Damascus?

Power cuts hours vary clearly between Damascus and its countryside. The countryside witnesses blackouts for two days only for the power to come back on the third day for two hours only, while the capital witnesses power outage for hours.

Does Damascus have a 'new' power rationing program?

Elias Khoury, a resident of Bab Touma neighborhood in Damascus, talked to Enab Baladi about a "new" power rationing program in his area, in which "electricity goes out for three hours and come back for another three hours," according to him.
