

The United States of America is one of the lithium-ion battery powerhouses in the world. Besides the domestic lithium-ion manufacturing companies, it has the presence of all major lithium-ion companies from across the globe. Market-size of lithium-ion batteries in the United States of America The United States of America is one of the largest lithium-ion [...]

Recent News about the Company. TDSG is the 1st Li-Ion Battery Manufacturer Company in the country to receive one of the most well-known & popular Certificates in the Automotive Industry. It has received the ...

In this provisional report on 2023, demand for lithium-ion batteries in the light vehicle automotive sector grew around 40% last year, up to 712 GWh from 507 GWh in 2022. So, which companies...

By leveraging advanced materials science, engineering expertise, and manufacturing capabilities, lithium titanate battery manufacturers deliver products that meet the demanding requirements of power-intensive ...

The future will be powered by lithium, a metal that is the key ingredient for making lightweight, power-dense batteries used in next-gen technology like electric vehicles, otherwise known as EVs ...

It is a great delight and pride to introduce our company "MatLabs Technologies", a company with more than 20 years of professional experience in the field of Research & Development Instrumentation in Electrochemistry, Lithium ion Battery & Super Capacitor Fabrication & Pack line Instrumentation for Lab, Pilot and industrial Scale, Materials Testing & ...

NioCorp achieves processing breakthrough in demonstration plant testing of niobium and titanium production. NioCorp Developments Ltd. ("NioCorp" or the "Company") (Nasdaq:NB; TSX: NB) and L3 Process Developments ("L3") announce a process breakthrough in niobium and titanium recovery achieved at L3's demonstration-scale processing plant Trois ...

Here are the leading companies in the Sodium-ion Battery sector: HiNa Battery Technology Co., Ltd. HiNa Battery Technology Co., Ltd. is a Chinese company specializing in high-performance sodium-ion batteries. The company is known for producing batteries with high energy density, long cycle life, and low cost.
