We lead a competent and motivated staff to produce and deliver electricity competitively and profitably to Haïti. From February 2011 to August 2021, we delivered a total of 2,138,942,440 Kwh to the metropolitan grid of Port-au ...

Okra Solar in Haiti. In 2021, the first Okra Solar mesh-grid was deployed in the country by the Haitian energy developer: Alina Enèji. The project connected 35 rural households in rural Dulagon with reliable and affordable energy access for the first time.

The Okra Solar Project is estimated to bring affordable energy to 300 Haitian households, with an overall capacity of 65 kWp.

Solar Development Project. A reliable power supply is a fundamental requirement for any hospital. HCBH struggle with unreliable grid power which can limit the ability to provide life-saving care to those in need. Whilst HHA has strived over the years for the hospital to become as self-sustainable as possible through solar power, the size of our ...

In contrast, the water-resistant WakaWaka solar lamps, which only need to be charged for a few hours during the day, produce enough safe solar power to get through the entire night. The lamps have five controls, from very bright to night-light. Living in darkness is not only inconvenient but has a devastating impact on the economy. Students ...
