

BYD's Containerized Energy Storage system is a modular, scalable solution for large-scale energy storage needs. Housed in a robust container, this system integrates advanced battery technology to store and manage energy efficiently, making it ideal for grid support, peak shaving, and backup power applications.

Enter Battery Box: a local energy storage solution that helps manage the timing differences between intermittent energy generation and electricity usage. Occupying an area equivalent to just 2 car parking spaces, each Battery Box connects directly to the local electricity network, storing excess renewable energy when it is windy or sunny.

Established in 2019, AURORA ENERGY is a Zimbabwean owned Renewable Energy Company which specializes in the provision of efficient energy solutions to businesses and homes across the nation and beyond. We are here to enhance our customer experience and value through ...
