

How long does a lead acid battery last?

Maintenance-Free Sealed Lead Acid Battery. Absorbent Glass Mat (AGM) technology for efficient gas recombination of up to 99%. Up to 5 Years in Standby Service at 25°C Eurobat (20°C) : 3-5 years, Standard Commercial Nominal Operating Temperature : 25°C(77°F) Discharge : -15°C ~ 50°C (5°F~122°F)

What is a sealed lead acid battery?

BatteryGuy Sealed Lead Acid batteries are market leading portable power products used in emergency lighting, Uninterruptible Power Supplies, wheelchairs and electric scooters, alarms, trolling motors and many other applications. A sealed lead acid battery being cut open to reveal its internal components.

What is a valve regulated lead acid battery?

General Series Valve Regulated Lead Acid batteries are designed with AGM (Absorbent Glass Mat) technology, high performance plates and electrolyte to gain extra power output for many commonly used applications. Special one-way valves allow excessive gases to escape but otherwise the battery is completely sealed an 30mV @ 25°C, max. Cu

Can a sealed lead acid battery be cut open?

A sealed lead acid battery being cut open to reveal its internal components. Do not try this at home as sealed lead acid batteries contain harmful chemicals which may damage your skin and clothing.

What is a bg-12120f2 battery?

The BG-12120F2 is a low cost alternative 12 volt 12 Ah Rechargeable Sealed Lead Acid battery offering value for your money. It is an ideal replacement battery for the original Equipment Manufacturers (OEM) installed unit. --- Chemistry: Rechargeable Sealed Lead Acid Dimensions: 5.95" L x 3.86" W x 3.7" H Height w/terminals: 3.94" H

What is a rechargeable lead battery used for?

All purpose, maintenance-free rechargeable lead battery; ideal for UPS, emergency backup power, emergency lighting, communication equipment, alarm and security systems Find similar products Choose and modify the attributes above to find similar products. This is provided for informational purposes only.

Lead Acid batteries are designed with AGM (Absorbent Glass Mat) technology, high ...

MM-H6 Start and Stop Car BCI Group Size 48 12V 70 AH, 120RC, 760 CCA Rechargeable AGM Car Battery (5 / 3) Model# MAX3926700 \$ 159. 99. Add to Cart. MIGHTY MAX BATTERY . 12-Volt 55 Ah Rechargeable GEL Sealed Lead Acid (SLA) Battery (4.2 / 10) Model# ML55-12GEL \$ 139. 99. Add to Cart. 12-Volt 18 Ah Nut and Bolt Terminal Sealed Lead Acid (SLA) ...

The lead-acid battery is a type of rechargeable battery first invented in 1859 by French physicist Gaston Planté; is the first type of rechargeable battery ever created. Compared to modern rechargeable batteries, lead-acid batteries have relatively low energy density spite this, they are able to supply high surge currents. These features, along with their low cost, make them ...

The BG-12120F2 is a low cost alternative 12 volt 12 Ah Rechargeable Sealed Lead Acid battery offering value for your money. It is an ideal replacement battery for the original Equipment Manufacturers (OEM) installed unit.---Chemistry: ...

Maintenance-Free Sealed Lead Acid Battery. Absorbent Glass Mat (AGM) technology for ...

Maximum Discharge current (A): 120A (5sec.) Self Discharge: Unicell batteries can be stored for more than 6 months at 25°C (77°F) Please charge batteries ...

B.B. Battery®: Lead-acid batteries of the highest quality: 1.) Pure Lead With 99,9% above-average high purity level and corrosion resistant micro crystal structure 2.) Promotion Performance Fleece Glass-mat separator with ...

All purpose, maintenance-free rechargeable sealed lead acid battery. Not for sale in the EU. Choose and modify the attributes above to find similar products. 5 In stock Need more? You can reserve stock now just order your desired quantity ...
