

Do you need a power plug adapter in Morocco?

In Morocco, they use power sockets (outlets) of type C and E. In the United Kingdom, you have plugs G. You need a power plug adapter in Morocco for sockets type C and E. The plugs of your electric devices don't fit without. We don't sell power plug adapters. We refer you to Amazon, where you will find a great selection of travel adapters.

Will Leoni expand its production capacity in Morocco?

Nuremberg (Germany) / Agadir (Morocco), 10 July 2023 - Leoni, a global provider of energy and data management solutions in the automotive sector, will extend its production capacities in Morocco. Among others, an additional plant for wiring systems will be built in Agadir, specialized in the Commercial vehicles segment and providing 3,000 new jobs.

What will CNGR and Al Mada do in Morocco?

CNGR and Al Mada plan to build a plant in Jorf Lasfar in the El Jadida region of Morocco to process national raw materials (especially cobalt, phosphate and manganese) into battery components. The focus will be on producing precursors for NCM and LFP cathode materials. The plant will also include recycling facilities.

How many electric cars will Morocco produce a year?

The planned annual production is 70 GWh. That should be enough for more than one million electric vehicles. Production is mainly for export to meet the high demand in Europe and America - but the partners do not name potential customers. The investment volume is about 20 billion Moroccan dirhams (1.8 billion euros).

Are CNGR and Al Mada planning a joint venture to produce battery materials?

CNGR Advanced Materials and the African investor Al Mada are planning a joint venture to produce battery materials in Morocco. The exact location for the plant has already been announced, as has the start of production - provided the official permits are granted in time.

How much money does Morocco invest in construction?

Production is mainly for export to meet the high demand in Europe and America - but the partners do not name potential customers. The investment volume is about 20 billion Moroccan dirhams (1.8 billion euros). Construction will begin this year after the necessary permits have been obtained and production is scheduled to start in 2025.
