What is Namibia's Energy Initiative?

The initiative, which is Namibia's first-ever World Bank financed energy project, will be implemented by NamPower, with the aim of minimising outage risks, supporting load growth, and unlocking future opportunities for power trade in the Southern African Power Pool.

Why is NamPower partnering with Kahenge Haulofu?

NamPower MD Kahenge Haulofu welcomed the financing approval and described the new transmission line as crucial to unlocking increased access to variable renewable energy within Namibia, as well as facilitating regional electricity trading.

The World Bank has approved a \$138.5-million finance package to support the integration of renewable energy into Namibia's electricity system by strengthening its transmission grid and...

The project is the first utility-scale BESS in Namibia and the Southern African region and will eventually establish a 58MW / 72MWh battery energy storage system at the Omburu substation in the Erongo Region. The BESS project is funded through a bilateral cooperation agreement between the German federal government and the Namibian Government.

"To mitigate intermittency and maintain grid stability, NamPower is developing and constructing Battery Energy Storage System (BESS) projects such as the Omburu BESS with a capacity of 54 MW (1 hour of storage), to be located at Omburu substation near Omaruru Town, and the 45 MW/90 MWh BESS to be located at Lithops Substation ...
