

New Energy Battery Range Extender Package Price

Do I need a range extender battery?

With the 40kWh batteries and larger, we highly recommend also installing a range-extender battery. These batteries are prone to overheating and will limit your ability to charge at DC fast chargers to 1-2 sessions per day -- a phenomenon called rapidgate.

How much energy does a 240 watt range extender produce?

Increase your riding range by 50%~65% with the new EnergyPak Plus with 240Wh of extra energy. This range extender pairs with your existing 375Wh or 500Wh main battery to produce a whopping 615 to 740 total watt hours of energy. Please note: The EnergyPak Plus requires a V7.3 Firmware update, which can be performed at your local Giant dealer.

What is a range extender & how does it work?

A range extender serves as a secondary onboard power generator for when the electric batteries do not have any charge left in them. The range extender works by sending emissions to the electric engine to keep it going. Here are the 13 electric vehicles that come with range extenders.

What makes the energypak 200 a good range extender?

In addition, the range extender offers first-class integration. The EnergyPak 200 is mounted on a specially developed bottle cage. Not only does it look smart, it also ensures a low centre of gravity and is extremely practical. The battery can be inserted and removed in a few easy steps.

Where is the extender battery located?

The extender battery is placed in the boot of your car, in a custom designed battery box. This battery box ensures your safety: it contains the battery and makes sure there is no way you can accidentally disconnect or break the extender battery.

What is a giant energypak plus 200 battery?

With the Giant EnergyPak Plus 200 additional battery, your e-bike can go the extra mile. Expand your range in no time at all or use the extra power for a few more laps on the trail. The super compact EnergyPak battery with 200 Wh is inconspicuously mounted on the bottle cage of your electric bike.
