

What is energy long cell battery shell?

The new energy long cell battery shell developed and produced by our company adopts a cold bending forming+high-frequency welding process,which breaks through the constraints of traditional deep drawing/extrusion processes and overcomes the welding technology of ultra-thin aluminum shells.

What is the new energy vehicle long cell battery shell sector?

The new energy vehicle long cell battery shell sector,as the company's main strategic development direction in the future,will become the main sector for the company's transformation from the traditional automotive industry to the new energy vehicle industry.

What are the disadvantages of aluminum battery shell?

Low tensile strength and hardness of the aluminum shell of the power battery can lead to low compressive strength and hardness,and the profile is prone to curved and tortuous shapes. Impact on battery stability
High-frequency Welded Long Cell Shell Battery Pack

-- Lithium-ion power battery intelligent factory, for professional and technical personnel research and development results escort.

Energy storage batteries focus on high-security lithium iron phosphate, Xiangtan base capacity of 2.0GWh square aluminum shell batteries, 2.3GWh soft package batteries, all-round to create a ...

Guangdong Topu Lithium Test Equipment Co., Ltd. is a set of technology research, development, production and sales of new energy lithium battery automation equipment and solutions provider, professional research and development with the domestic leading level of new energy equipment, widely used in lithium battery assembly equipment, battery packaging m

ACEIN Gathering Square Shell Energy Storage Cells is a technology enterprise specializing in the design, development, manufacturing and sales of energy storage lithium-ion cells and battery packs, and is committed to creating zero-carbon green energy storage battery products.

In the field of energy storage equipment, square shell battery modules are mainly used to build large-scale energy storage systems to balance grid supply and demand, ...

It is used for power battery pack/energy storage battery pack square aluminum case battery pack assembly, and is composed of upper and lower double speed chain lines. The whole line is divided into PACK assembly line and die ...

ACEIN Gathering Square Shell Energy Storage Cells is a technology enterprise specializing in the design,

development, manufacturing and sales of energy storage lithium-ion cells and battery packs, and is committed to creating zero ...
