

New energy battery automatic welding equipment

Acey New Energy Technology was established in 2009, as a high-tech enterprise our R& D team specializing in researching and manufacturing of high-end equipment for lithium-ion batteries. Our business covers cylindrical, prismatic, pouch battery pack semi-automatic & full automatic assembly machines, battery cell & pack testing systems, lab-scale ...

The Lithium Battery Spot Welding Machine is a cutting-edge piece of equipment designed for the precise and efficient welding of cylindrical lithium-ion cells. It plays a critical role in the assembly process of modern battery packs, ensuring the structural integrity and electrical performance of cylindrical cells.

The Lithium Battery Spot Welding Machine is a cutting-edge piece of equipment designed for the precise and efficient welding of cylindrical lithium-ion cells. It plays a critical role in the assembly process of modern ...

The laser welding machine used in the new energy lithium battery industry has the features of ...

Double Plus Speed Chain Lithium Battery Laser 1. Adopting the ideal light source for laser welding: continuous fiber laser, and two laser operation modes of continuous and pulse can be selected to achieve a variety of ideal welding effects: spot w...

Discover the future of lithium-ion battery manufacturing with the battery laser welding for 2023. Elevate your manufacturing processes with its precision, efficiency, and versatility in the new energy battery production.

Like power batteries, energy storage batteries use laser welding mainly for cells, modules and packs. As a benchmark enterprise of laser welding and intelligent equipment in the lithium battery industry, Huiyao Laser has accumulated many years of experience in intelligent manufacturing of battery equipment. It combines laser welding technology ...
