

# New energy battery export declaration requirements

What is the new battery regulation?

To respond to the growing demands, the EU has adopted a New Battery Regulation in July 2023, which replaces the previous Battery Directive from 2006 (EU Battery Directive 2006/66/EC). We summarized the Directive and its key changes for you. REGULATION (EU) 2023/1542 of July 12, 2023 on batteries and waste batteries

What is the new EU Battery regulation 2023/1542?

The new EU Battery Regulation 2023/1542 entered into force on 17 August 2023 and covers the whole lifecycle of batteries from production to reuse and recycling. While the Battery Regulation is already in force, further legal documents will be published in the coming years specifying certain aspects of the implementation (see timeline below).

What are the requirements of a battery manufacturer?

The manufacturer must draw up certain technical documentation. The manufacturer shall operate an approved quality system for the production, inspection and testing of the finished product and shall be subject to surveillance. This applies only to some types of batteries.

What are the minimum recycled content requirements for industrial batteries?

The Regulation mandates minimum recycled content requirements for industrial batteries with a capacity greater than 2 kWh, excluding those with exclusively external storage, EV batteries, and SLI batteries. The minimum percentage shares of the recycled content are as follows:

What are the requirements for a rechargeable industrial battery?

Performance and Durability Requirements (Article 10) Article 10 of the regulation mandates that from 18 August 2024, rechargeable industrial batteries with a capacity exceeding 2 kWh, LMT batteries, and EV batteries must be accompanied by detailed technical documentation.

What are the deadlines for implementing a battery?

Depending on the battery type and level, different deadlines apply for implementation, which are to start from 2025. Details on the technical implementation will be gradually accompanied by delegated acts or implementing acts of the EU. Requirements for minimum shelf life and performance

Learn about exporting lead-acid batteries for electric vehicles, including customs codes, declaration requirements, dangerous goods certificates, and safety packaging and transport considerations.

A new EU law aiming to expand battery collection, reuse and recycling in Europe entered into force yesterday. CEENERGYNEWS PRO. Search. Search. CEENERGYNEWS. Subscribe. Oil & Gas. Slovnaft can ...
