

What is the Nordic battery collaboration?

In the Nordic region, Finland, Norway and Sweden are combining their collective strengths in the battery value chain through the Nordic Battery Collaboration. As a battery region, the Nordics have become a notable actor in the broader European battery market.

Who is Nordic batteries?

Nordic Batteries fills the gap in the value chain between cell producers and system integrators, completing the Norwegian value chain for battery production. They have developed battery modules and ground-breaking technology for automated assembly. CEO Jarle Gjølberg received the diploma from Frank Brøthen in Kongsberg last week.

What is the Nordic energy cluster?

The event is held in the growing Nordic energy cluster. The cluster has many active companies and actors working together with innovative projects such as the development of the Finnish batteries ecosystem, hi-tech products, and new University education for the industry.

Why should you choose Nordic batteries?

At Nordic Batteries we focus on what is important: safety, reliability and performance. Nordic Batteries fills the gap in the value chain between cell producers and system integrators, completing the Norwegian value chain for battery production. They have developed battery modules and ground-breaking technology for automated assembly.

What is the Nordic energy (NES)?

The Nordic Energy (NES) is an international networking event for energy experts, focusing on energy storage and sustainable battery value chain. The event is held in the growing Nordic energy cluster.

Is stationary energy storage a good idea in Norway?

Electric cars now account for 79 per cent of new cars sold in Norway, and the MS Medstraum was recently launched as the world's first electric fast ferry. In a global report on lithium-ion batteries, Norway ranked first in sustainability. These are impressive records. Even so, stationary energy storage is beginning to steal the limelight.

Battery Show - Battery Tech Expo GOTHENBURG Eriksbergshallen, Maskingatan 11, 417 64 Goteborg. 15th and 16th October, 2025. Meet manufacturers, suppliers and engineers from the Nordic value chain of batteries.

Nordic Batteries announces a strategic partnership with Morrow and Eldrift to develop complete battery packs for mobile and stationary battery energy storage solutions (BESS). The overall project and product pipeline

amounts to 7 GWh ...

In August 2016, Helen Ltd. commissioned the largest battery energy storage system (BESS), "Suvilahden s&#228;hk&#246;varasto", in Nordic countries. The BESS, rated 1.2 MW/600 kWh, was built by Toshiba Transmission and Distribution Europe S.p.A. using Toshiba's state-of-the-art SCIB battery modules and supplied to Helen by Landis + Gyr Ltd. It is ...

The event is held in the growing Nordic energy cluster. The cluster has many active companies and actors working together with innovative projects such as the development of the Finnish batteries ecosystem, hi-tech products and new University education for the industry.

Whether for EVs or energy storage, Norway has always had ideal conditions for battery growth: renewable energy in the form of hydropower, strong government financial ...

The Nordic Energy (NES) is an international networking event for energy experts, focusing on energy storage and sustainable battery value chain. Join our experts Pedro Guimar&#227;es Giorni and Maarit Gratschew next ...

Welcome to the first Nordic Energy Storage (NES) event on March 25, 2022. NES is an international networking event for energy experts, focusing on energy storage and sustainable battery value chain. At NES, ...

The Battery industry is on the cusp of a power revolution with big technology companies investing heavily in the next generation of battery development and energy ...
