

What is the best outdoor solar light?

Durable and versatile, the AloftSun Motion Sensor Solar Landscape Spotlights are our best outdoor solar light pick with three easy-to-use lighting modes and two installation methods, so you can have bright light when and where you need it.

What type of outdoor solar light do I need?

The type of outdoor solar light you choose will depend on the area that you're trying to light, as well as the ambiance you're trying to create. Soft dim light can be perfect for an alfresco dining experience, whereas bright white light is ideal for a practical lighting solution. The choice is yours!

Do outdoor solar lights work?

Outdoor solar lights can transform your backyard into an inviting oasis, light the path to your front door after dark, and even help deter intruders. No matter which type you choose, these versatile lights take in sunlight during the day to illuminate your yard at night.

What are the different types of outdoor solar lights?

Based on their light output, outdoor solar lights fall into three general types: motion-activated, dusk-to-dawn, and timer-controlled. Because of solar cell size and battery capacity, the solar energy gathered is a limited resource, so consider when you want the lights to shine and for how long.

Are solar lights a good option for outdoor space?

One great way to illuminate your outdoor space is with solar lights. Sarah Jameson, marketing director of Green Building Elements, says, "Solar lights, compared to low voltage and line voltage outdoor lights, are safer and more DIY-friendly since there's little to no wiring required at all."

How long does a solar powered outdoor light last?

This versatile solar-powered outdoor light can be mounted three ways: on top of flat surfaces such as columns or pillars, on walls, or as a pathway light using the included soil stake. When fully charged, this light will stay illuminated for up to 10 hours with a simulated flame light.
