There are three most popular types of solar panels on the market: monocrystalline, polycrystalline and thin-film.

Is Trina Solar a good choice?

Trina Solar is a great choice when the scope of your installation grows large. How many solar panels on a pallet? Generally, one pallet has from 25 to 35 solar panels in it -- sometimes more. The number depends on the manufacturer. Whenever we put out a solar panels pallet for sale, we always specify the number of PV modules inside.

Are REC Solar panels a good brand?

Norwegian brand REC is known primarily for its premium-class residential PV modules. However, it doesn't limit itself to this: the product line is wide enough that you can use wholesale REC solar panels for building a strong commercial system, small or large. REC products are known for high quality, great warranties and innovations.

Why should you buy wholesale solar panel kits from Maxbo?

One of the biggest advantages of purchasing wholesale solar panel kits from Maxbo is our factory-direct pricing model. Because we design, manufacture, and distribute our own products, we can eliminate the middlemen and pass the savings directly to our customers.

What is a wholesale solar panel kit?

Maxbo's wholesale solar panel kits are built with high-efficiency photovoltaic cells that capture more sunlight and convert it into electricity, even in less-than-ideal conditions. Our panels are constructed using robust materials that are designed to withstand harsh weather conditions, such as heavy snow, wind, and extreme temperatures.
