Request a free survey and quote online or call us on 0330 124 2941 today. What are integrated solar panels? Integrated solar panels - also known as in-roof solar panels - are PV panels that are fitted into, rather than on top of, your roof.

Integrated solar panels integrate into your roof to replace traditional tiles, providing solar energy to your home while maintaining aesthetic appeal. For the average home, the prices of integrated solar panels range from £5,000 - £6,000 and can vary based on factors such as system size and electricity consumption.

You can expect most integrated solar panel systems to cost a similar amount to that of traditional on-roof solar panel systems. Want to get a better idea of how much this will cost you? Check out the table below to compare solar panel prices for different-sized properties.

In this guide, we"ll cover the essentials of flat roof solar panel installation, including benefits, mounting options, and cost considerations, so you can make an informed decision about harnessing solar energy from your flat roof.
