

Who manufactures San Diego solar panels?

Blue Pacific Solar is an American based company that sells San Diego solar panels at wholesale prices, typically used for grid-tie and off-grid systems. Our company takes on the challenge of helping homeowners and independent minded people create their own energy.

What's going on with a new San Diego manufacturing facility?

The facility will be complemented by two additional spaces of 16,000 square feet and 8,000 square feet nearby for beta development, R&D and solar composite manufacturing. For Co-CEO Steve Fambro, it's a natural next step in the company's growth and a tribute to our San Diego roots.
