What is Fastmarkets Asian battery raw materials & recycling Conference?

Fastmarkets Asian Battery Raw Materials & Recycling Conference is a must-attend event for anyone involved in the battery supply chain. Held in the heart of the battery materials industry, Seoul, this conference offers a unique opportunity to connect with key players from the mining, refining, recycling, and automotive sectors.

How does vertical integration affect battery production costs?

Although production costs for raw materials have also increased, e.g. due to rising energy costs, they are still likely to be well below market prices for the vast majority of mining projects. This type of vertical integration, driven by OEMs, can therefore lead to lower manufacturing costs for batteries in the long term.
