

Second-hand energy storage container for sale

Are second hand shipping containers a good storage unit?

Second hand shipping containers make excellent storage units as they are portable, secure and watertight. If you are planning to get years of use out of a storage container, it is important to check the container is structurally sound with no holes or large areas of rusting.

Where can I buy a used shipping container?

Oceanbox Containers provide a full range of used shipping containers for sale, including 20ft, 40ft, 45ft and reefers. Get in touch!

Are used shipping containers a good investment?

The market for used shipping containers is vast. Second-hand containers can be used for a wide variety of alternative purposes - secure and watertight, they need only to be sited and adapted for new use. In their original form, used shipping containers make excellent storage - both for temporary and permanent use - at a very cost effective price.

What is a second hand container?

Usually second hand containers are sold in wind and watertight condition, which means that there are no holes in the container and the door seals are intact, firmly fixed to the door and do not leak. They normally come finished with its original paint and will not come with lock box fitted as standard.

Can used shipping containers be used as dry land storage containers?

Many used shipping containers will go on to be used as dry land storage containers, but there is a fast growing trend to use them as the building blocks for shipping container conversion projects. Second hand shipping containers make excellent storage units as they are portable, secure and watertight.

Are second-hand shipping containers a good base for shipping container conversions?

Second hand shipping containers are an ideal base for shipping container conversions. At Containers Direct our dedicated conversion service has worked on everything from chemical stores to offices and classrooms, and everything in between.
