Smart Solar Lighting System Price List

How much does a smart lighting system cost?

Because smart lighting systems are customised,putting a price on them can be difficult. DIY options,such as Philips Hue bulbs,can cost as little as £100. A full house wired solution,on the other hand,can cost anywhere between £5,000 and £10,000to install. Before you begin work,you should know how far your budget will allow you to go.

Are smart lights expensive?

However,as you may have noticed,smart lights are expensive,costing significantly more than standard light bulbs on average. We will only discuss the supply costs of smart lighting in this section,leaving out the labour costs.

How much does a smart heating system cost?

Smart heating is a heating system that can be controlled remotely,typically via a smartphone app. If you have an internet-connected smart thermostat,you can control your home's gas boiler from your smartphone. Installing a smart thermostat can cost between £150 and £280,depending on the brand.

What is smart lighting & how does it work?

Because of the versatility of smart lighting, you can control individual light bulbs, groups of light bulbs, or even the lights in an entire building. You could programme lighting themes so that when you're watching a movie, the lights in the room dim except for the backlighting around your television.

How do I choose a smart light?

The type of smart lighting you decide to have has an impact on the installation. Smart bulbs, which screw into light sockets like regular bulbs, are available for purchase and installation. Smart switches, on the other hand, may be a better option. They enable you to turn on lights by using a wall-mounted control or an app.

Where should smart lighting be installed?

Smart lighting can be installed as a stand-alone feature or as part of a larger integrated home - the important thing is that it is installed where you need it. These systems are important in open-plan areas such as kitchens and living rooms,main bedrooms,and exterior zones such as the driveway or garden.
