

The competition is the third round of the country's National Renewable Energy Programme (NREP) and will allow bidding in two categories. The first one will be open to smaller companies and covers the 80-MW Layla and the 120-MW Wadi Al Dawaser solar projects, while the 300-MW Saad and the 700-MW Ar Rass schemes will be offered in the other category.

Of the four solar PV projects, Acwa Power consortium (which comprises ...

2 ???&#0183; An independent evaluation later, 30 solar PV and 4 onshore wind projects submitted their proposals out of which only 1.76 GW was selected finally, all representing solar PV capacity. The largest winner of this round is Pele Green Energy as it won 6 projects out of the 8 awarded. Winning prices ranged from ZAR 420.74 (\$22.71)/MWh for a 240 MW ...

Of the four solar PV projects, Acwa Power consortium (which comprises China's SPIC (Huanghe Hydropower Development Company) and Saudi group WEHC (Water & Electricity Holding Company) has emerged as a major bidder in three of them - Layla, Wadi Al Dawasir and Ar Rass solar projects.

"In the case of liquified natural gas tenders [in 2019], the ministry knew the winning companies very well because it had worked with them before," he said. "But the lowest bid prices [for the solar projects] are from ...

FIVE bidders who were shortlisted for the third Large Scale Solar (LSS3) scheme last year have won tenders to provide 500MW of solar-powered electricity, amid changes in government and disruptions caused by ...

10 ???&#0183; REIPPPP BID WINDOW 7. The Seventh Bid Window of the REIPPPP ...

Solar projects with a combined capacity of 911.5 MWp have secured the winning status in France's latest tender for ground-mounted photovoltaic (PV) power capacity, which ended with a slight undersubscription.
