

How much does a new solar meter cost?

They may even need to give you a whole new meter. If it isn't part of your installation quote, this usually costs about \$300. It'll cost more if you have a three phase supply. You are not normally allowed to switch your solar power system on until your new meter is installed. To help pass the time, you can do some simple checks of the install.

How much does a solar meter cost in Victoria?

Solar meter fees in Victoria are often charged upfront in a lump-sum, generally costing around \$60. Queenslanders, on the other hand, pay for their solar upgrade through a 'solar meter charge'. This is similar to the metering service charge whereby customers pay a few cents each day, with these costs added to your bills under other charges.

How much is the solar metering charge in Queensland?

In Queensland for residential customer there is currently a Solar Metering Charge of 7.7 cents per day including GST. This would be the recurring charge you can see of \$28.11 on the Basic Plan Information Documents, if you are not in Queensland please reach out to the team, and they will be able to review this further for you. 15-04-2020 12:07 PM

I have had a 3kw system installed. I have three meters. One is marked "Net Solar", one "Net Domestic" and the other according to the installer is still my off peak meter. My net solar reading is higher than net domestic. The problem is, that I have noticed that my Off peak meter sometimes turns during the day. Not backwards. Why is that!
