

Support for drive three phase 220V /380V/415V pumps for 7.5-15kW rating. The inverters automatically start or sleep only after being connected to solar panel without any parameter setting Including PV over voltage protection, PV polarity reverse warning, auto derating against over-temperature etc, which can extend product's life. Ensure the ...

three phases solar power system 80kw 60hz 380v panel ground mounting. 3 phase 60kw 80kw solar panel system supplier, solar panel(QTY: 208 piece) pure sine wave Inverter 80KW/360VDC input(QTY: 1 piece), PV combiner(QTY: 2 ...

Solar pump inverter is a device that convert solar panel input power to AC output for pumps. The solar pumping inverter system has MPPT built-in, can maximize the energy efficiency. Solar pump inverter is also named as solar pump controller and solar pump drive.

Fully automatic system using variable speed drive compatible with AC, 3-phase, submersible and surface mount pumps, and high efficiency PMSM Pumps. The system is composed of a PV generator, a pump and a solar pump drive.

Support for drive three phase 220V /380V/415V pumps for 7.5-15kW rating. The inverters automatically start or sleep only after being connected to solar panel without any parameter setting Including PV over voltage protection, PV ...

- o Digital control for fully automatic operation, data storage and protective functions
- o Intelligent power module (IPM) for the main circuit
- o LED display operating panel and support remote control
- o Dual mode AC and DC power supply input is available
- o Low water probe sensor, and water level control function

Controller Input Voltage: 380V (VoC) What's Included: Pump, Controller, Float Level Switches, and 6m Cable: Solar Panel Requirements. Panels Voltage (VMP) QTY; 340 Watts: 38.14V -- 400 Watts: 41V -- What is included: 1 x Bundu Power Cable Joint Kit; 1 x Bundu Power 2 Way Pump Box; PLEASE NOTE: Submersible Cabler (4mm 3 Core) sold separately. PLEASE NOTE: ...
