

What are the easiest solar lights to set-up?

The ECO Wedge XT motion light is among the easiest solar lights to set-up because the unit is completely self-contained and there is no separate solar panel. The ECO Wedge is quick and easy to install with no DIY skills required. Please note that the ECO Wedge must be installed outside in an unshaded location to work to its full potential.

What is the eco wedge XT solar motion welcome light?

The ECO Wedge XT Solar Motion Welcome Light is designed to guide you to your door after dark using only the power of the sun. At night the ECO Wedge XT's 20 natural white SMD bulbs illuminate as soon as motion is detected and turn off automatically after motion stops.

Can a solar light work in winter?

A well positioned solar panel will enable this product to work in typical UK winter conditions. This light is solar powered and does not require mains power to work. Maximise the brightness in the summer and double the runtime on shorter days. Once motion is detected, this light can activate up to 250 times a night.

Which solar light is waterproof?

The ECO Wedge is among the most waterproof solar lights currently available and carries an IP64 waterproof rating. The ECO Wedge is designed to withstand all the elements and within reason can be installed in exposed locations. One of your FAQ answers says that the light gives 160 lumens. Another says 80 lumens.
