

We are committed to produce sheet, film, board extrusion machine. Sheet extrusion machine includes PET sheet, PP/PS sheet, PLA biodegradable sheet, PETG sheet extrusion machine, PVC soft sheet, PMMA/GPPS sheet extrusion line ...

A 100MW solar module line is an automatic production line made up of quality individual equipment, like glass loading equipment, stringer machine, layup machine and laminators, to reduce manual cost to the maximum. The production line is also equipped with a MES system for production data monitoring to benefit the stable and reliable production.

We provide solar panel production line, full automatic conveyor with full automatic laminator, full automatic tabber stringer and full automatic panel tester. Professional solar panel making machine manufacturer, solar module manufacturing plant.

From assembling the photovoltaic cells to finishing the complete module, each phase is scrupulously carried out by a specific machine. Our engineers design and develop manufacturing equipment for line production of photovoltaic modules or as freestanding units .

Horad, as a specialist manufacturer of intelligent PV panel production line, is committed to providing complete PV module manufacturing solutions for global customers within the photovoltaic industry like solar panel manufacturers. Our portfolio includes not only automatic solar panel production lines, but also individual equipment for PV ...

In Ecoprogetti we work daily on the design and construction of complete production lines for solar panel assembly. We build high-quality hardware and dedicated software in-house. Each machine in the production line is enhanced to ensure consistent quality.

We offer complete solar panel production lines for global customers to manufacture photovoltaic modules based on their specific requirements. Since foundation, Horad has been committed to becoming a leading manufacturer of intelligent PV panel production lines by focusing on the solar panel line R& D, designing, manufacturing, sales and services.

A 300MW solar module line is an automatic production line of solar modules. All of the individual equipment has high automation, lowering manual cost and lifting production efficiency. The 300MW line can produce various types of solar ...
