

# Summary of Tuvalu Energy Storage Exhibition

What is Tuvalu doing with the ADB?

Tuvalu, an island country midway between Hawaii and Australia, has commissioned a new solar and storage project with the ADB, featuring a 500 kW on-grid solar rooftop array and a 2 MWh BESS in the capital, Funafuti. "The project is under the Pacific Renewable Energy Investment Facility and has a \$6 million support.

What is ADB's new solar project in Tuvalu?

"The project is under the Pacific Renewable Energy Investment Facility and has a \$6 million support. It is ADB's first for Tuvalu's energy sector," the ADB said in a statement. "The project also installed solar PV in the outer islands of Nui, Nukufetau, and Nukulaelae."

Are low-income households benefiting from subsidization of tariffs in Tuvalu?

Purchasing electricity has been identified as the second highest household commodity expenditure in Tuvalu but consumption across the country is not even. Low-income households, especially in rural areas, may not be gaining a good share of the potential social, poverty, and gender benefits from subsidization of tariffs.

Located between Hawaii and Australia, the 500 kW on-grid solar rooftop project and a 2 MWh battery energy storage system (BESS) installed by Tuvalu Electricity Corporation in the capital, Funafuti, were recently commissioned by the Philippines-headquartered Asian ...

Executive Summary The Tuvalu Increasing Access to Renewable Energy Project is supported with grant funding from the Asian Development Bank (ADB). The project will help Tuvalu increase the penetration of renewable energy and reduce dependence on imported diesel fuel for electricity generation. The project consultant (Entura), has carried out feasibility studies ...
