

Who makes the best solar panels?

Panasonic: Panasonic, a leader in home electronics, is also a top name in the solar industry. Its solar panels and battery both made it on our "best of" lists because of their top quality and great performance. However, the company falls behind regarding U.S. investment and doesn't manufacture its own panels.

What are the best home solar panels?

Hanwha Q Cells, REC Alpha Pure, Panasonic EverVolt, Silfab, and SunPower A-Series are the best home solar panels on the market. The price per panel of most of these averaged around \$300. The best solar panels come standard with a 25-year performance warranty. Monocrystalline solar cells are more efficient than polycrystalline types.
