Not all locations receive sunlight all through the year. Also, the intensity of sunlight varies. Hence, the house location is important to decide on the installation of a solar power system. A solar system in an area with abundant sunlight will generate the average energy as expected in a 5 kW system. This will be enough to supply power for ...

If you're a homeowner considering the installation of solar panels, the 5kW solar system with battery price typically ranges between Rs 4, 50,000 and Rs 6, 50,000 before incentives or subsidies. The number of solar panels required for a 5kW system can vary based on the efficiency of the PV modules you choose, leading to potential price fluctuations.
